POST-OP APPT

SPECIALISTS HOSPITAL SHREVEPORT FINANCIAL POLICY

Thank you for choosing us as your health care provider. We are committed to providing the best treatment possible for our patients, and to your treatment being successful. We hope that you understand that our credit and collection policies are a necessary part of assuring the financial resources needed to maintain this vital health care facility for our patients and community.

Our charges for your care are considered to be the usual and customary charges in line with what other hospitals in this geographical area charge their patients. You are responsible for payment of your bill in full, regardless of your insurance company's determination of usual and customary charges for this area. The only exceptions for this are if you are covered by Medicare, or you are covered by a PPO or HMO for which we are a provider of services.

STATEMENT OF RESPONSIBILITY

This date, I have a contract with SPECIALISTS HOSPITAL SHREVEPORT (SHS), A Professional Medical Corporation, for the furnishing of medical and/or surgical procedures for illness or injury. I understand that I am responsible for the total bill incurred as a result of treatment received. I have been advised that the surgeon, the anesthesia provider, and the pathologist will bill me separately for their services. Although I may have insurance coverage, I understand that this is an agreement between me and my insurance carrier to pay certain amounts for my medical care. The SHS bill is an agreement between me and the facility, and I am totally responsible for payment of this bill in full. This is regardless of the status of any pending insurance claim, and regardless of the insurance company's determination of *usual and customary* rates or amount of assignment. I accept full responsibility for payment of the account, and, depending upon the circumstances, I may be expected to pay in full at time of service.

In the event that I am covered by a managed care PPO or HMO for which this facility is not a provider, I understand that Specialists Hospital Shreveport will accept the allowable charges. I will not owe any amount that is disallowed by the insurance carrier. I accept responsibility for payment of my co-pay, deductible and any allowable amount not paid by my carrier, and/or treatment my policy does not cover. I understand that you do accept assignment on Medicare and I will not be responsible for any disallowed charges. However, I understand that I am responsible for deductible, co-pay and any charges not covered by Medicare.

If I am here as the result of a liability claim, I understand that SPECIALIST HOSPITAL SHREVEPORT cannot wait for settlement of my claim in order to be paid, and that payment is due at the time services are rendered. My attorney and/or insurance carrier will be provided with an itemized statement for my reimbursement.

If I am here as the result of an on the job injury and my workman's comp claim is denied, I understand that I am personally responsible for payment of the bill in full.

In the event that credit is extended to me, I understand that any bill rendered by SPECIALIST HOSPITAL SHREVEPORT is due and payable upon receipt of statement. If payment in full creates a financial hardship, the hospital will consider an extended payment plan arrangement. I also understand that I may pay any or all of my bill in full at any time by credit card (**MASTERCARD, VISA, or DISCOVER**). In event of default in the payment of any amount due and this account is placed in the hands of an agency or attorney for collection or legal action, I understand that I will be held liable for my outstanding balance, plus all court costs and attorney fees incurred as a result. I, the undersigned, have read and understand this contract, and hereby agree to the terms herein.

THE BALANCE BILLING DISCLOSURE NOTICE

Professional services rendered by independent healthcare professionals are not part of the hospital, ASC, In-patient Hospice, SNF, or ARCP bill. These services will be billed to the patient separately. Please understand that physicians or other healthcare professionals may be called upon to provide care or services to you or on your behalf, but you may not actually see, or be examined by, all physicians or healthcare professionals participating in your care; for example, you may not see physicians providing radiology, pathology, and EKG interpretation. In many instances, there will be a separate charge for professional services rendered by physicians to you or on your behalf, and you will receive a bill for these professional services that is separate from the bill for hospital, ASC, In-patient Hospice, SNF, or ARCP services. These independent healthcare professionals may not participate in your health plan and you may be responsible for payment of all or part of the fees for the services provided by these physicians who have provided out-of-network services, in addition to applicable amounts due for copayments, coinsurance, deductibles, and non-covered services.

We encourage you to contact your health plan to determine whether the independent healthcare professionals are participating with your health plan. In order to obtain the most accurate and up-to-date information about in-network and out-of-network independent healthcare professionals, please contact the customer service number of your health plan or visit its website. Your health plan is the primary source of information on its provider network and benefits. To help you determine whether the independent healthcare professionals who provide services at this facility are participating with your health plan, this healthcare facility has provided you with a complete list of the names and contact information for each individual or group.

ASSIGNMENT OF BENEFITS/AUTHORITY TO RELEASE INFORMATION

I have on this date, assigned to SPECIALISTS HOSPITAL SHREVEPORT the benefits due me under my existing policy or policies of insurance. I understand, in so far as they are necessary to cover such expenses, that the above assignment of insurance is accepted by SHS as a convenience to me. Said corporation is hereby given my consent to file claims on said policy and to do such other actions as it deems necessary in connection therewith so as to promptly obtain payment to the medical corporation, direct, and without payment to me.

I authorize the release of all medical records to the referring and family physicians, to my insurance carrier, and/or my attorney at law. I allow fax transmittal of my records, if necessary.

GENERAL CONSENT TO TREATMENT

The undersigned patient or patient's representative requests admission to Specialists Hospital Shreveport for care and treatment. I am aware that the practices of medicine are not an exact science and acknowledge that no guarantees or promises have been made as to the results of treatment or examination in the hospital. I consent to the following and authorize the following:

Medical Consent: I consent to all medical and surgical treatment, x-ray, laboratory, anesthesia and other medical and hospital procedures performed or prescribed by the attending physician during this hospitalization.

Advance Directive: I understand and I have an opportunity to make known my wishes, in writing regarding my health care and/or end of life decision. This directive is in the form of a living will and/or durable power of attorney for health care.

SPECIALISTS HOSPITAL SHREVEPORT ACKNOWLEDGEMENT OF RECEIPT OF NOTICE OF PRIVACY PRACTICES AND CONSENT FORM

I understand that as part of my health care, Specialists Hospital Shreveport (SHS) originates and maintains health records describing my health history, symptoms, examination and test results, diagnoses, treatment, and any plans for future care and treatment. This important information may be used and disclosed for my treatment, so that my physician can get paid, and for various uses related to my physician's operations.

I understand that SHS's *Notice of Privacy Practices* has a more complete description of how my health information may be used and disclosed to carry out these treatments, payments, or health care operations. I have the right to review the notice prior to signing this consent. I understand that SHS reserves the right to change those practices described in the *Notice of Privacy Practices* and, if it does so, the *Notice of Privacy Practices* will also change. A copy of any such change is available to me upon request.

I understand that I have the right to request restrictions as to how my health information may be used or disclosed to carry out treatment, payment, or health care operations and that SHS is not required to agree to the restrictions I request but, if it does agree, it must comply with that agreement.

I understand that SHS may use my personal health information for purposes of statistical analysis resulting in comparison of my health information to that of other patients who may have received differing treatments, but with no disclosure of any identifiable PHI. Other allowed uses of PHI for research purposes are addressed in the *Notice of Privacy Practices* that I have received.

I have received a copy of SHS's *Notice of Privacy Practices*, and I hereby consent to SHS using and disclosing my health information as described in the *Notice of Privacy Practices*, including any changes SHS may adopt in the future. I understand that I may revoke this consent in writing, except to the extent that SHS has already taken action in reliance on this consent.

I acknowledge that I have read all of the above and Release c hereby give my consent to treatment in accordance with the above statements.

Patient/Responsible Party

By signing this disclosure, you acknowledge that you have read and understand the above.

SPECIALISTS HOSPITAL SHREVEPORT

A PATIENT'S BILL OF RIGHTS

1. The patient has the right to considerate and respectful care without discrimination due to age, race, color, religion, sex, national origin, disability, diagnosis, sexual orientation, or source of payment.
2. The patient has the right to expect that within its capacity, the hospital must make reasonable response to the request of a patient for services.
3. The patient has the right to receive, as soon as possible, the services of a translator or interpreter to facilitate communication between the patient, physician and hospital healthcare personnel.
4. The patient has the right to obtain from his physician complete and current information concerning his/her diagnosis, treatment and prognosis in terms the patient can be reasonably expected to understand. The patient is responsible for asking questions when they do not understand what they have been told about their care or what they are expected to do.
5. The patient has the right to receive from his physician information necessary to give informed consent prior to the start of any procedure and/or treatment. Where medically significant alternatives for care or treatment exist, the patient has the right to such information and to know the name of the person responsible for the procedures and/or treatment. These people shall identify themselves by introduction and/or by wearing a name tag.
6. The patient has the right to participate in the development and implementation of his/her plan of care.
7. The patient has the right to refuse treatment to the extent permitted by law, and to be informed of the medical consequences of his/her action.
8. The patient has the right to every consideration of his/her privacy concerning his/her own medical care program.
9. The patient has the right to expect that all communications and records, including all computerized medical information pertaining to his/her care should be treated as confidential.
10. The patient has the right to access information contained in his/her medical records within a reasonable time frame.
11. The patient has the right to obtain information as to any relationship of his/her medical facility to other health care and educational institutions insofar as his/her care is

SPECIALISTS HOSPITAL SHREVEPORT

A PATIENT'S BILL OF RIGHTS

concerned (and) any professional relationships among individuals, by name who are treating him/her and the patient may refuse to allow their participation in his/her treatment.

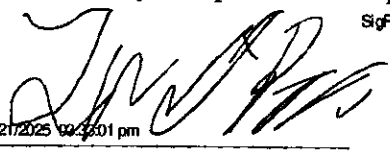

12. The patient has the right to be advised if this hospital proposes to engage in or perform human experimentation affecting his/her care or treatment (and) has the right to refuse to participate including the investigations of new drugs and medical devices.
13. The patient has the right to appropriate pain assessment and management preoperatively and postoperatively.
14. The patient has the right to expect reasonable continuity of care.
15. The patient has the right of full explanation on reason of transfer to another facility, provisions for continuing care and acceptance by the receiving institution except in emergencies.
16. The patient has the right to be free from restraints of any form that are not medically necessary or are used as a means of coercion, discipline, convenience or retaliation by staff.
17. The patient has the right to be free from all forms of abuse and harassment and to receive care in a safe setting.
18. The patient has the right to be informed by the attending physician and other providers of healthcare services about any continuing health care requirements after his/her discharge from the hospital. The patient shall also have the right to receive assistance from the physician and appropriate hospital staff in arranging for required follow-up care after discharge.
19. The patient has the right to formulate advance directives and have hospital staff and practitioners who provide care in the hospital comply with these directives.
20. The patient has the right to examine and receive an explanation of his/her hospital bill regardless of the source of payment and may receive upon request, information relating to financial assistance available through the hospital.
21. The patient has the right to know what hospital rules and regulations apply to his/her conduct as a patient. The most important of these is to provide to the best of their knowledge, accurate and complete medical information about their allergies, present complaints, past illnesses, hospitalizations, medications and other matters relating to their health. Patients are responsible both for following the preoperative and postoperative

SPECIALISTS HOSPITAL SHREVEPORT

A PATIENT'S BILL OF RIGHTS

instructions recommended, and for the consequences should they not follow recommended instructions.

22. Specialists Hospital will not be responsible for lost, theft, or breakage of personal items. Patients and families are responsible for being considerate of the hospital's personnel, property and other patients. Patients and families will help control noise and disturbances and follow the no smoking policy within the facility.
23. The patient and family are responsible for providing required information regarding payment of charges and for promptly meeting any financial obligation agreed to with the hospital.
24. Every patient and/or family member has the right to express disagreement and/or file a grievance without risk of discrimination. All complaints involving patient services will be referred to the Clinical Manager of this facility. If the problem cannot be resolved, it will be forwarded to the Administrator and the Chief of Surgery to seek resolution of the dispute in a timely manner. Complaints that require administrative follow-up will receive a written or verbal response from the Hospital Administration with the goal of resolving the issue. The process will not lend to discrimination of services rendered to the grievant. Offering a complaint in no way compromises the patient's future access to the hospital or the level of care
